

# FORMWORK FOR MULTI-STOREY PROJECT

PERI SKYDECK system for concrete floor formwork

The **PVC COVERSTRIP** is one of the 4 elements of the SKYDECK system

The **PVC COVER STRIP** is designed to fill the gap between the formwork slab panels and will stay in place for a couple days after dismantling of the SKYDECK system.

The QUADRA PLAST **PVC COVER STRIP** is very resistant against breakage and offered in different lengths

18, Rue Sicard, Sainte-Thérèse, (Québec), CANADA, J7E 3W7
